ADITIONAL INFORMATIONS

- Frontend programming in Javascript | React | Html | Tailwind Css | Mysql |

- Interest in working in the technology field

- Immediate availability

- Ease of adaptation to different routines and environments

PERSONAL PROFILE

I'm communicative, fluent in English, responsible, and adept at learning new technologies. I have experience in academic and personal front-end development projects, where I've developed skills in Javascript, React, HTML, and CSS. I'm available to start immediately and am seeking my first professional opportunity in technology, focusing on web development. I have a technical degree and intend to pursue a career as a front-end developer, contributing with dedication and a desire to grow.

ACADEMIC BACKGROUND

Complete high school

CEM 417 - 2022 to 2024
Status: Complete

Technical course in ADS (systems analysis and development)

ETSM - 2024
Duration: One and a half years
Status: Completed

English Instructor – Private Lessons / Volunteer Work

Gama Interschool Language Center
period: 6 months (2022)

Advanced English course

Gama Interschool Language Center
Duration: 5 years (2018-2022) (leveling)
Status: Complete

PROFESSIONAL GOAL

I'm seeking my first opportunity as a front-end developer at a large technology company, where I can apply my technical skills, fluency in English, and quick learning ability. I have a proactive personality, excellent communication skills, and a commitment to results. I want to make a meaningful contribution to the team, learning from experienced professionals and growing alongside the company, taking on increasingly challenging web development challenges.
